AD-35i

35-lb Capacity Coin Dryer

Standard Features:

- · Variable drum speed
- Pre-heat system
- Trans-axial air ow
- Fully insulated cabinet
- Self-cleaning lint screen
- · Direct spark ignition
- Two-point roller support
- "IMC®" intuitive micro control with auto-dry system
- Single-phase reversing basket
- Stainless steel basket and fronts
- Simpliÿed inverter drive system
- Fits through standard 36" door
- Available in gas & electric

Optional Features:

- Double-pane door glass
- S.A.F.E. (Sensor Activated Fire Extinguishing System)

Optional AAFC adjusts exhaust fan speed to improve exhaust flow with increased back pressure caused by installation issues. This exclusive patented technology adjusts fan speed and enhances dryer performance. Measurements are calculated in real-time, on an ongoing basis to optimize dry-times and efficiency.

Performance

The achievement: Through innovative design, the i-Series dryers achieve higher performance, industry-leading efficiency, shorter dry times and safer, more reliable operation. What an owner wants, an owner gets: saving money on utilities, payroll, and maintenance. Anyone can say their dryers have the best performance. The Intelligent Dryer Series has the features to prove it.

Reliability

Demanding owners require more than just outstanding performance for their toughest laundry environments. To accommodate owners, we designed the i-Series with years of reliable operation as an absolute design necessity. A sturdy steel-welded cabinet, fewer moving parts and top-quality components are the foundation of the line. Costly repairs and unwanted downtime are now a thing of the past.

IMC—Intuitive Micro Controls is easy-to-use and 100% customizable.

The IMC is an intelligent and simple-to-use control system that provides one-touch program selection. By creating a fully integrated drying system, ADC utilizes IMC to control all aspects of the drying process to minimize user error and maximize drying speed and efficiency.
